# About us

25th anniversary in 2020

Leading PCR reagent manufacturer in Europe

Trusted trademark in 110+ countries

Quickly growing range of products

60% revenue from diagnostic sector

Patents in EU, US and South Korea

ISO 9001 and ISO 13485 certified

Knowledge

Quality

Cooperation

Innovation

Reliable

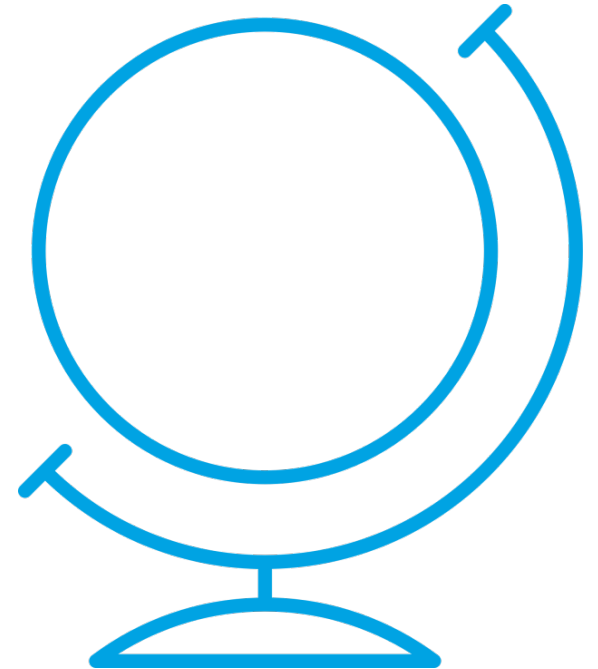

Responsible

Unique know-how in  
designing & producing wide  
range of polypeptides stable  
at room temperature for  
extended time period

# Unique up to 30 days stability at room temperature

- Manufacturer of reagents for DNA/RNA testing
- Tailor-made services and know-how to serve the needs of the diagnostic sector
- Ice-free handling and shipping
- Strict quality control ensuring the highest lot-to-lot consistency
- Dedicated scientific support

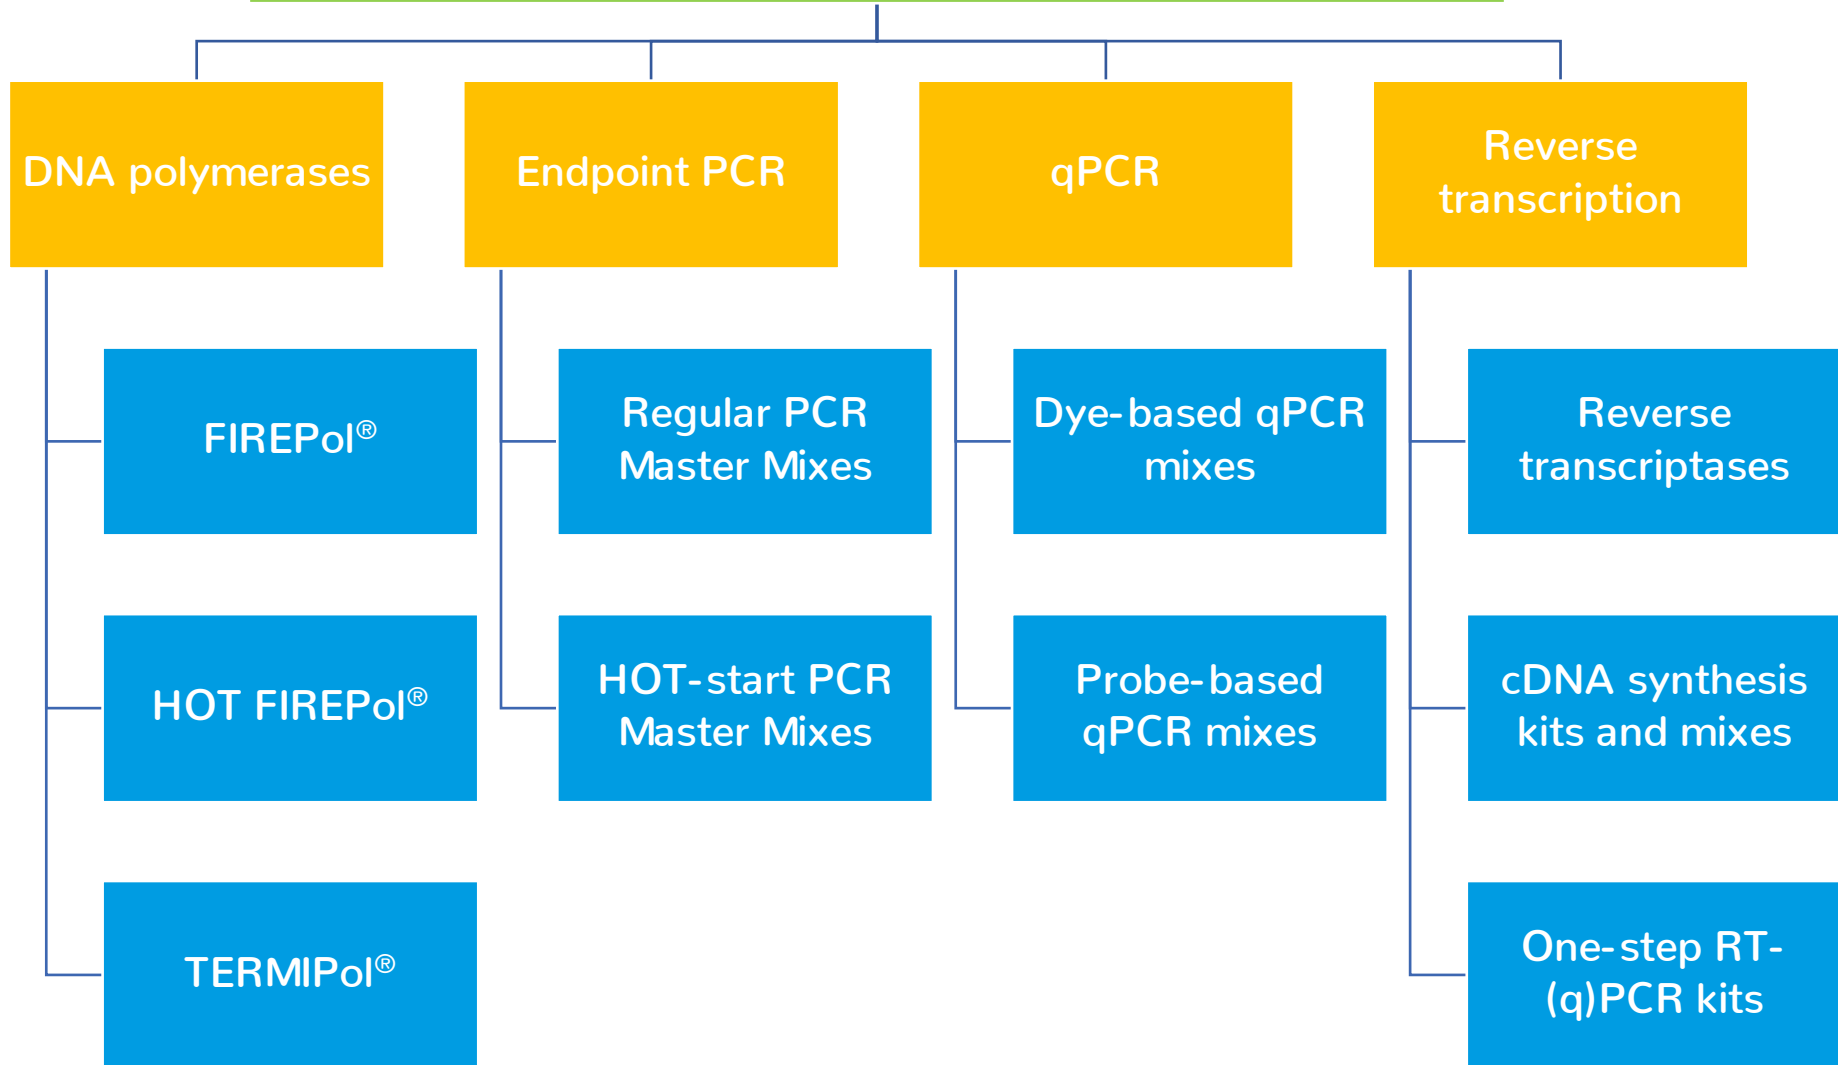

# Our focus in 2020

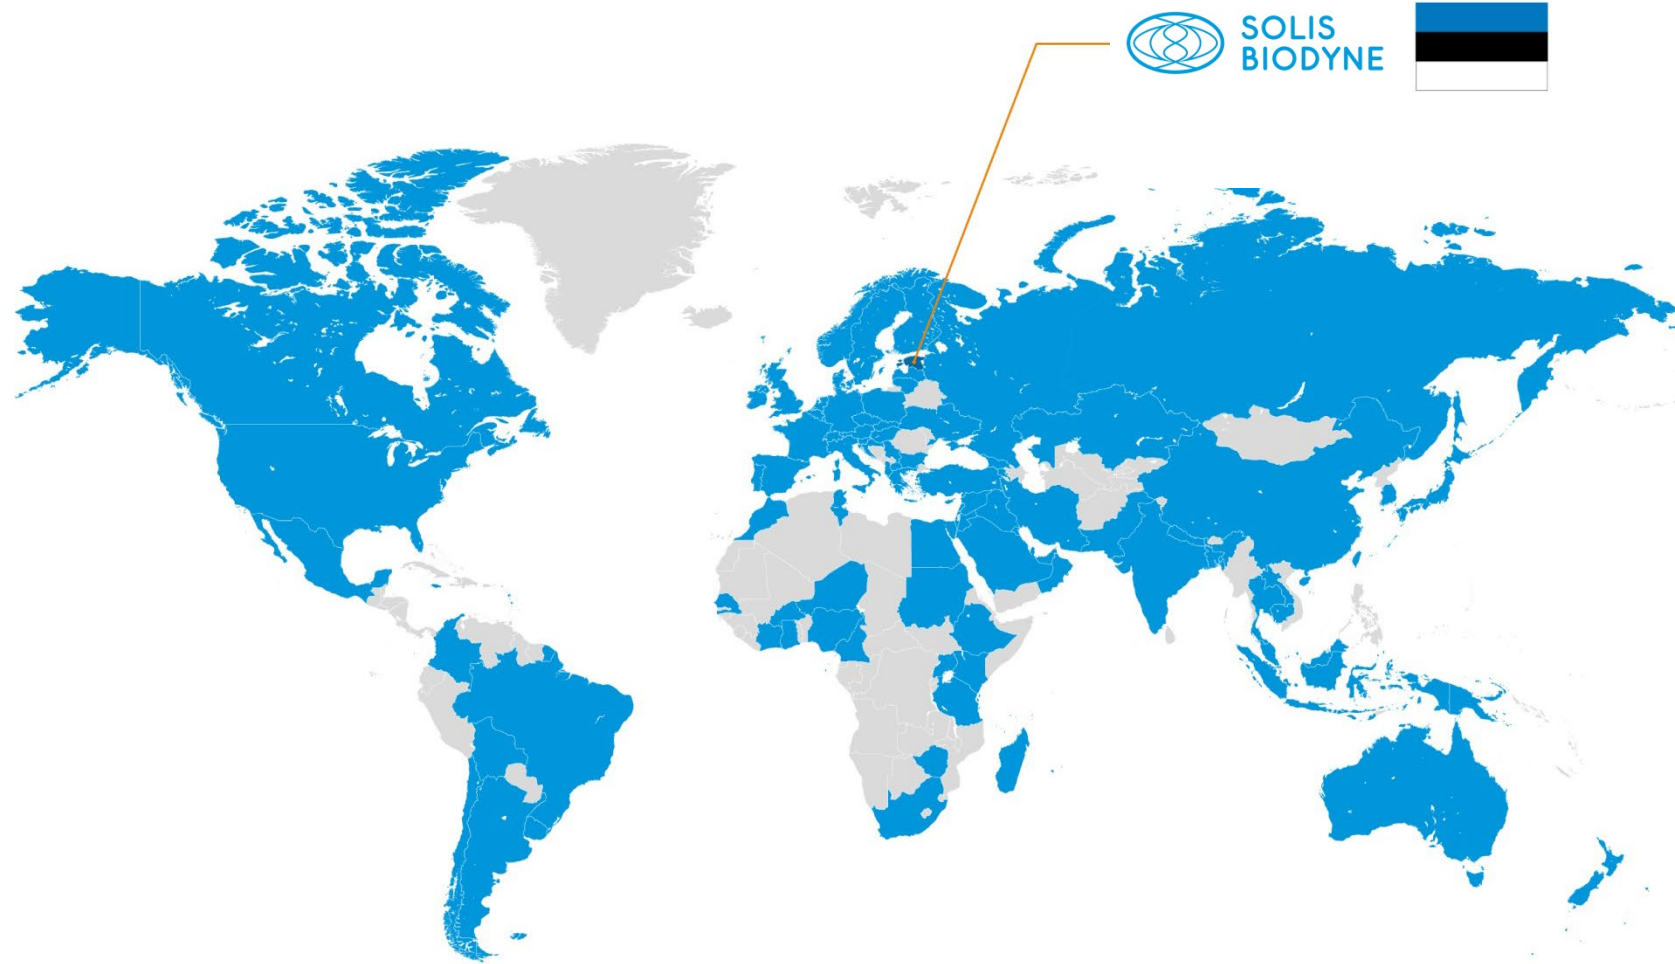

- Development and optimization of one-step RT-qPCR reagent for COVID-19 detection: **SOLIScript® 1-step CoV Kit**.
- **SOLIScript® 1-step CoV Kit** is now available for kit manufacturers and diagnostic labs for combating COVID-19 epidemic worldwide.
- The kit is highly stable in liquid format and suitable for **ICE-FREE** shipping and handling

Solis BioDyne full product portfolio  
all stable at room temperature for 30 days

# Solis BioDyne worldwide presence

# Solis BioDyne Team

- Our team has almost doubled in the past year and we don't plan to stop growing any time soon.
- If you see your future in biotech, we are happy to welcome you to our young and innovative team!
- Send your CV and motivation letter to: [solisbiodyne.com/careers](https://solisbiodyne.com/careers)
